FOR IMMEDIATE RELEASE

Pheasant Stocking Suspended for this Season on the Lock Haven Water Authority Property

Pheasants will not be stocked at the Lock Haven Water Authority property this year because of a dam improvement project on the property. The Lock Haven Water Authority will be performing intermittent dam upgrades throughout the fall hunting season and have asked the PA Game Commission to suspend pheasant stocking efforts there this year. The pheasants allocated for this property will be diverted to nearby State Game Lands 333 in Centre County. This is just a temporary suspension, with stocking resuming on the Water Authority property next year.
